PREFACE.

The sixth volume of the 'Catalogue of Engraved British Portraits,' entirely compiled by Mr. H. M. Hake, contains a new alphabetical series of portraits added to the collection during the printing of the catalogue and subsequently, but not later than April 30th, 1923. These additional portraits make a total of over 6,000 separate items.

The numeration follows that of the main catalogue in the case of names which have already appeared.

This Supplement is followed by an Index of Painters and an Index of Engravers to the entire work, Vols. I.–VI., portraits appearing in the supplement (Vol. VI.) being distinguished by an asterisk. In these indexes all entries under variant spellings of painters' and engravers' names have been united, and the identity of each painter or engraver has been established wherever possible, but no attempt has been made to compile a biographical dictionary of artists.

A brief list of books containing portraits, mentioned in the six volumes of the catalogue is given as an appendix. Its object is simply to provide students seeking further information with a guide for immediate reference.

For the alphabetical order of names the same general principles of order and arrangement have been followed in this as in the former volumes. They are fully stated in the preface to Vol. I., and are here recapitulated in order to save uncertainty and trouble to those using the present volume separately.

All royal personages are entered under their Christian names.

When two or more persons, not being peers or peeresses, bear the same surname, they are catalogued in the alphabetical order of their Christian names.

Peers and peeresses are placed under their titles, the ladies following their husbands.

In cases where the same title has been held at different periods by persons of different name and family, the several groups of holders are arranged not in the alphabetical order of their family names but in order of date. Successive holders of the same title who belonged to the same family are similarly arranged in order of succession and not in the alphabetical order of their Christian names.

In cases where the title of nobility is also the family name, the holder of the title is placed before commoners of the same name.

All titled persons are catalogued under the latest style or title to which they attained, cross-references being given from any earlier style or title appearing on portraits of them engraved before their final promotion.

Women are catalogued under their latest married names; when portraits of them exist under their maiden or earlier married names, cross-references are given from these.

In the arrangement of the various portraits of a single person, those of which the painters or designers are known precede those of which the engravers only are known. Portraits after known painters are placed in the alphabetical order of the painters' names, all those done from the same picture being grouped together, with the original or first engraving from the picture at the head, and copies, repetitions, or derivatives following. Portraits by known engravers after painters unknown are placed in the alphabetical order of the names of the engravers. Those which are altogether anonymous follow last. In cases where either the painter's or the engraver's name is known but not given on the published state of the plate, it is placed within brackets.

As a general principle only the published state of a print and any later issues of it are described: but of all the more interesting and important examples of the engraver's art the proof states and the number of impressions preserved in the collection are also recorded.

When any print has been described in an already published catalogue of engravings a reference to it has been given. The following is a list of works so cited in Vol. VI.:—

Parthey = G. Parthey. *Wenzel Hollar; beschreibendes Verzeichniss seiner Kupferstiche*, 1853.

C. S. = J. Chaloner Smith. *British Mezzotinto Portraits*, 1878–83.

Whitman = A. Whitman. *Valentine Green*; catalogue of his works, 1902.
Samuel William Reynolds: catalogue of his works, 1903.
Charles Turner; catalogue of his works, 1907.

THE FOLLOWING ABBREVIATIONS ARE USED IN THE CATALOGUE.

H.L.	half-length.	s.	son.
T.Q.L.	three-quarter-length.	dau.	daughter.
W.L.	whole-length.	pl.	plate.
w.	wife.		

Thanks are due for help in obtaining biographical and other details to Mrs. R. L. Poole, Mr. W. Roberts, Dr. Arnold Chaplin, and the late Mr. E. E. Leggatt, and for special aid in connection with Scottish portraits to Mr. Kenneth Sanderson and Mr. J. Brownlee Hunter; also to Mr. J. D. Milner and Mr. C. H. Collins Baker for valuable suggestions and help in reading proofs.

CAMPBELL DODGSON.

INDEX

OF

PAINTERS AND ENGRAVERS

NOTE

Owing to the considerable period which this catalogue has taken to compile, a certain number of painters' and engravers' names will be found to have been printed with various spellings and initials. In this index all such entries have been brought together under the accepted form of the artist's full name.

In cases where a painter's or an engraver's exact identity still remains uncertain the artist's name or initials are given in square brackets. In the case of individual portraits of uncertain authorship (*e.g.* when a print bears the artist's surname only) the sitter's name is given in square brackets under the most probable artist's name.

Artists bearing the same surname are arranged in alphabetical order of their initials, any entries still remaining identified by that surname only following them.

Names appearing in the supplementary volume are marked with an asterisk, and are given twice when they occur in the main catalogue as well as in the supplement.

N.B.—No general attempt has been made to differentiate between the prints or reproductions from genuine works by a given painter and those from copies or wrongly attributed paintings; in consequence the lists of portraits under the more famous names are disproportionately long.
